Price of fiber optic cable under pole

Overview

Armored fiber optic cables designed for direct burial cost $6-14 per linear foot. Conduit systems add $2-4 per foot but allow future cable additions. These fibers are thin strands, often as small as a human hair, that transmit data as pulses of light. With prices ranging from $1 to over $ 50 per linear foot, depending on the installation method. Home and business fiber optics projects typically range from a few hundred to several thousand dollars, depending on run length, fiber type, and labor needs. Whether deployed beneath city streets, across rural landscapes, or within industrial zones, these cables come in specialized types designed to meet specific. The type of fiber optic installation you choose has a major effect on overall costs.
