Price range for 6-core outdoor optical fiber cable

Overview

6 Core Optical Fiber Cable We take pride in presenting our comprehensive range of 6 Core FTTH Single CableWholesale 6 Strand Fiber Optic Cable, Indoor/Outd.

Key Takeaways

6-core outdoor optical fiber cables typically range from $0. 30 to $5 per foot, depending on fiber type, jacket, and construction.

Pricing Overview

The cost of a 6-core outdoor optical fiber cable varies significantly based on fiber type, construction, and performance standards. For multimode fiber, prices generally range from $0. 30 to $1 per foot for standard OM1/OM2 cables, while higher-performance OM3/OM4 multimode cables suitable for data centers or campus networks can cost more, often $1 to $3 per foot depending on jacket material and certification.

Single-mode outdoor cables designed for FTTH or long-distance telecom applications typically cost $0. 50 to $5 per foot, with armored or reinforced versions at the higher end.

Factors Affecting Price

Fiber Type: Single-mode fibers are generally more expensive than multimode due to longer-distance capability and lower signal loss. Jacket Material: Outdoor-rated jackets like PE or LSZH increase durability and cost, especially for UV and moisture resistance. Armor and Reinforcement: Armored cables with FRP layers or yarn for tensile strength are more expensive but suitable for direct burial or harsh environments.

Performance Standard: OM3/OM4 multimode fibers or OS2 single-mode fibers designed for high-speed networks cost more than legacy OM1/OM2 or standard single-mode cables. Quantity and Packaging: Bulk orders reduce per-foot cost, while small sample orders or pre-terminated assemblies increase unit price.
