Qatar Low Voltage Complete Equipment Company

Overview

Home TEMCO Electromechanical is a Qatari-owned Company established in 2016, to provide professional support to clients and contractors in the electromechan.

Key Takeaways

Qatar hosts several leading companies specializing in low voltage (LV) complete equipment, including switchgear, control panels, and integrated electrical solutions.

Key Companies and Their Offerings

Al Dana Switchgear is a prominent manufacturer in Qatar, providing full-line electrical distribution and power quality equipment. They offer turnkey solutions for power applications, including custom-designed switchgear, integrated power control systems, and expert commissioning services. Their facilities support design, manufacturing, and testing, ensuring high-quality, reliable, and sustainable solutions for industrial and commercial projects in Qatar.

Binghalib Engineering specializes in low voltage switchgear, offering products from distribution boards to intelligent motor control centers (MCCs). They provide in-house and on-site testing, commissioning, and retrofitting services, ensuring operational efficiency. With offices across the UAE, Oman, and Qatar, they cater to a wide range of industrial and construction projects.

Pacific Ocean Electrical Switchgear Automation W. L. L delivers integrated energy solutions, including LV switchgear, power distribution, protection and control systems, building management systems (BMS), and lighting control panels.

They are partners with global brands like Schneider Electric, Siemens, ABB, and Emerson, providing customized, reliable, and efficient solutions for EPC contractors, industrial facilities, and commercial buildings. Switchgear International is a Certified EcoXpert™ LV Panel Builder by Schneider Electric, authorized to design, assemble, test, and supply low voltage power distribution switchboards and motor control centers. They are ISO certified and have been serving Qatar since 2006, offering high-quality LV panels and power services.

Additional Notable Providers

Arrowhead Switchgear: Focuses on switchgear solutions and integrated power management systems, including MEP contracting and advanced control systems. Arabian Controls & Switchgear: ABB channel partner specializing in LV switchgear and control panels for industrial and construction sectors. Luck Switchgear: Part of AALCO Group, providing modern LV switchgear solutions with a focus on reliability and sustainability.

AL-JABER Electro-Mechanical Co.: Offers comprehensive MEP services, including supply and installation of electrical systems and LV switchgear.

Summary

These companies collectively provide complete LV equipment solutions in Qatar, covering design, manufacturing, testing, installation, commissioning, and ongoing support. They cater to industrial, commercial, and residential projects, ensuring compliance with international standards and leveraging partnerships with global electrical brands. For projects requiring turnkey LV solutions, these providers offer reliable and technologically advanced options tailored to Qatar's energy and construction sectors.
