Reasonable price for Nepalese mesh cable trays

Overview

Wire Mesh Cable Tray is often a cost-effective solution compared to other materials. It is relatively affordable, especially when considering its durability and long lifespan.

Key Takeaways

Wire mesh cable trays in Nepal typically range from NPR 1,500 to NPR 6,000 per unit, depending on size, material, and finish.

Overview of Pricing

The cost of mesh cable trays in Nepal varies based on several factors: Material: Mild steel, galvanized iron (GI), and stainless steel (SS) are common. Stainless steel trays are more expensive due to corrosion resistance and durability. Finish: Hot-dip galvanized, powder-coated, or painted finishes affect price.

Hot-dip galvanization adds protection against moisture and chemicals, increasing cost. Size and Dimensions: Widths range from 100mm to 1000mm, heights from 25mm to 100mm, and standard lengths are usually 2. 5 meters.

Larger trays or thicker materials cost more. Supplier and Brand: Local manufacturers like Jeetmull Jaichandlall (P) Ltd. and Super Cable Tray Pvt. Ltd. provide competitive pricing, while online marketplaces like Daraz offer smaller or pre-packaged trays for home or office use.

Typical Price Range

Small to medium trays (100–300mm width, GI or mild steel): NPR 1,500–3,000 per unit. Large trays (450–1000mm width, stainless steel or hot-dip galvanized): NPR 4,000–6,000 per unit. Custom sizes or specialized finishes: Prices may exceed NPR 6,000 depending on specifications and order volume.

Additional Considerations

Accessories such as brackets, supports, and earthing strips may add to the total cost. Bulk orders from manufacturers often reduce per-unit cost. Installation costs are separate and depend on the complexity of the setup, such as ceiling, wall, or floor mounting.

For purchasing, you can explore local suppliers like Super Cable Tray Pvt. Ltd. and Jeetmull Jaichandlall (P) Ltd., or check online platforms like Daraz for smaller-scale or ready-to-ship trays.
