Shaft Branch Cable Tray Fixing Support

Overview

These special heavy duty tray hold down cable tray clamps and expansion guides are ideal for fastening tray to C-Channels and beams, such as those found on bridges. Our focus has always been on solutions from the field of cable support systems. Establishing partnerships. In addition, Special Vertical Shaft Support Systems for the vertical application of the Busbar Systems are also available. There are support solutions available for your project with G, U, C and L profiles EAE Support-Bracket Systems are standard-produced as Pregalvanized and Hot Dip Galvanized. This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. The E-Line A (Support Accessories) series, E-Line Binrak (G Profiles), MFIX (Mechanical Installation Support Systems), and E-Line Seismic Support Systems are designed for use in buildings and factories, suitable for reinforced concrete or steel structures. Cable supports are manufactured according to common standards from high quality raw materials.

Guide to cable support systems

The load capacity of the cable trays according to the support width can be read off in the diagram using load curves – here, shown as an example for a cable tray with the tray widths 100 to 600 mm.

Support Systems for Cable Trays & Busbars

Reliable support systems for cable tray and busbars, designed for electrical and mechanical installations. Available in corrosion-resistant coatings.

Best Practice Guide to Cable Ladder and Cable Tray Systems

Introduction This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports.

Support Systems General Information

E-Line A-A (support Systems) are designed for use in buildings and factories, whether made of reinforced concrete or steel, to support systems such as busbars, cable trays, and cable ladders.

Cable Management Support Systems

Cable Support Systems are well designed to provide necessary support for cable trays, cable ladders and trunkings. Cable supports are manufactured according to common standards from high quality

Cable Tray Accessories, Cable Tray Hangers & Support | RS

These fittings are used in conjunction with cable trays to support cables in ventilation holes, assist with directional change of piping systems, and aid cable channelling around obstacles.

Cable Tray Technical Guide A practical guide to product selection and ...

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

Profiles and supports

Recommended for electrical installations, telecommunications, pipelines and supports for cable trays. The INDEX range of profiles and supports consists of a wide variety of products and accessories for
