Sierra Leone Fiber Optic Cable Junction Box Manufacturer

Overview

Ultra One delivers one of the most advanced and resilient connectivity infrastructures in Sierra Leone.

Key Takeaways

Key Sierra Leonean companies involved in fiber optic infrastructure include Ultra One, Leonecom, Axis Company Limited, and Datum SL Limited, all of which may supply or integrate fiber optic junction boxes as part of their network solutions.

Ultra One

Ultra One is a leading infrastructure company formed from the merger of ZoodLabs and Metro Cable, focusing on nationwide fiber-optic networks and 5G Open-RAN deployment in Sierra Leone. They provide high-capacity fiber networks, undersea cable systems, and edge-ready connectivity solutions for mobile operators, ISPs, and enterprises. While primarily a network operator, Ultra One's infrastructure services likely include the deployment and integration of fiber optic junction boxes as part of their backbone and last-mile solutions (Ultra One).

Leonecom

© 2026 EXF OPTICAL NETWORKS - All rights reserved

Leonecom operates as a neutral fiber optic operator in partnership with the government, managing the national fiber optic backbone. They provide capacity transportation services and connectivity through a terrestrial fiber optic network, enabling operators to scale their networks. Their services include nationwide fiber deployment and integration, which typically involves the use of junction boxes for network branching and management (Leonecom).

Axis Company Limited

Axis Company Limited offers comprehensive telecom infrastructure services, including fiber optic network operations, maintenance, and commercialization. Their expertise spans end-to-end fiber optic solutions, which would encompass the installation and management of junction boxes to ensure high-speed, reliable connectivity for businesses and telecom operators (Axis Company Limited).

Datum SL Limited

Datum S

L Limited is a Sierra Leonean company providing fast and reliable fiber optic internet services to businesses, homes, and institutions. While their focus is on delivering connectivity, their fiber solutions likely involve the use of junction boxes for network distribution and management, particularly in urban and institutional deployments (Datum SL Limited).

Summary

While there is no publicly listed manufacturer of fiber optic junction boxes in Sierra Leone, these companies—Ultra One, Leonecom, Axis Company Limited, and Datum SL Limited—are the primary providers and integrators of fiber optic infrastructure. They supply, deploy, and maintain the necessary components, including junction boxes, as part of their network solutions. For specific junction box procurement, contacting these companies directly would provide guidance on availability, customization, and installation services.
