Single-mode SCSC fiber optic connector

Overview

Singlemode SC Connectors Fiber Optic Connectors – MouserMouser offers inventory, pricing, & datasheets for Singlemode SC Connectors Fiber Optic Connectors.

Key Takeaways

A single-mode SC-SC fiber optic connector is a standard connector used to join two single-mode fiber optic cables with SC interfaces, ensuring low-loss, high-performance optical connections.

Overview

The SC-SC connector, also known as an SC simplex connector, is designed for single-mode fiber applications where precise alignment and minimal signal loss are critical. It features a push-pull coupling mechanism and a ceramic ferrule that ensures accurate fiber alignment and durability. These connectors are widely used in telecommunications, LANs, storage area networks, and fiber-to-the-home (FTTH) deployments.

Connector Type: SC (Subscriber Connector)Mode: Single-mode (typically OS2)Ferrule Material: Ceramic (zirconia) for high precisionPolish Types: UPC (Ultra Physical Contact) or APC (Angled Physical Contact)Configuration: Simplex (single fiber) or duplex (two fibers)Standards Compliance: FOCIS, ANSI/TIA-568. 3-D ApplicationsSC-SC connectors are commonly used to: Connect two single-mode fiber cables via SC-SC adapters Interface with patch panels, faceplates, and surface-mounted boxesSupport high-density network environments with compact pigtail cassettesEnable fusion splicing in reflectance-sensitive applications using splice-on connectors like Corning's FuseLite® AdvantagesReliable and repeatable connections with low insertion lossDurable ceramic ferrules for long-term performanceEasy installation with push-pull designCompatibility with standard SC adapters and network equipmentAdditional NotesFor applications requiring fusion splicing, SC-SC connectors like the FuseLite® Splice-On Connector provide fast, reliable connectivity without the need for splice trays.

For non-splice applications, UniCam® high-performance SC connectors offer a cost-effective solution without specialized equipment or consumables. SC-SC single-mode connectors are essential components in modern fiber optic networks, providing high-performance, low-loss connections for both enterprise and telecom environments.
