Solar Cable Tray Prices

Overview

Solar Cable Tray Price | Heavy Duty Ladder Tray for ConstructionDiscover durable solar cable tray prices with hot-dip galvanized steel. Ideal for construct.

Key Takeaways

Solar cable tray prices vary widely depending on material, size, and supplier, typically ranging from $10 to $50 per meter for standard galvanized or aluminum trays.

Price Overview

Solar cable trays are available in galvanized steel, hot-dip galvanized (HDG), aluminum, and stainless steel. Prices depend on material, dimensions, and protective coatings. For example, galvanized perforated trays are generally more affordable, while stainless steel or powder-coated trays command higher prices due to durability and corrosion resistance.

Wholesale suppliers often offer bulk discounts, especially for large-scale solar projects. Galvanized Steel Trays: $10–$25 per meter, suitable for most rooftop and ground-mounted PV systems. Aluminum Trays: $20–$35 per meter, lightweight and corrosion-resistant, ideal for coastal or humid environments.

Stainless Steel Trays (304/316): $30–$50 per meter, highly durable for harsh outdoor conditions.

Factors Affecting Price

Material Type: Steel is cheaper than aluminum or stainless steel. Hot-dip galvanization adds cost but improves corrosion resistance. Tray Size and Design: Widths from 25mm to 200mm and perforated or ladder designs influence pricing.

Certifications and Standards: UL, TUV, CE, and ISO certifications may increase cost but ensure quality and compliance. Quantity and Supplier: Bulk orders reduce per-meter cost. Suppliers like Jiangsu Holdee, MP Husky, and Shanghai Qiongkai offer competitive pricing for large projects.

Accessories: Covers, connectors, and support brackets may add to the total system cost.

Supplier Examples

Alibaba: Offers a wide range of NEMA/CE-certified galvanized trays for commercial projects. Jiangsu Holdee: Provides GI, HDG, aluminum, and stainless steel trays with custom sizes and fast production timelines.

M

P Husky: Specializes in solar cable tray systems for utility-scale installations, emphasizing durability and ease of assembly. Shanghai Qiongkai: Focuses on high-quality trays for residential and commercial solar projects, with wholesale pricing for bulk orders. In summary, solar cable tray prices are influenced by material, size, coating, and order volume, with standard galvanized trays starting around $10 per meter and premium stainless steel trays reaching $50 per meter.

For accurate pricing, contacting suppliers with your project specifications is recommended.
