Specifications of Lebanese Cable Trays

Overview

Cablofil wiremesh cable trays More than 40 years ago, Cablofil invented the wire cable tray concept and introduced it to the European market.

Key Takeaways

Lebanese standard cable trays are available in ladder, wiremesh, and solid designs, manufactured to meet both local and international standards for safe and efficient cable management.

Types and Materials

In Lebanon, cable trays are offered in several types to suit different installation needs: Ladder Trays: Ideal for heavy-duty cables and long spans, providing strong support and easy access for maintenance. Wiremesh Trays: Flexible and lightweight, allowing excellent ventilation, minimal dust retention, and easy visual inspection of cables. Legrand's Cablofil wiremesh trays are a leading example, featuring a 90% open structure and quick-fix systems for bends and direction changes.

Solid or Trough Trays: Used where full protection of cables is required, often in industrial or outdoor environments. Materials commonly used include pre-galvanized steel, hot-dip galvanized steel, stainless steel (304L, 316L), and aluminum, ensuring durability and corrosion resistance for various environments.

Standards and Compliance

Lebanese cable trays comply with local and international standards, ensuring safety and reliability: Fabrication and finish standards: BS EN 61537: 2007, BS 5750, BS EN 10130, BS EN 10131, BS EN 10051, and NEMA standards. Cabling standards: CENELEC EN 50173-1, EIA/ITA 568 A, ISO/IEC 11801. Certifications for specialized trays: IEC 61 537, ABS, and DNV for offshore or marine applications.

Accessories and Installation

Cable trays in Lebanon are supported by a range of accessories for installation and customization: Support systems: Wall brackets, suspension brackets, hangers, and Strut rails. Quick-fix systems: Toolless accessories like Faslock allow on-site bends and direction changes without special tools. Safety features: Patented safety edges reduce the risk of injury during installation.

Local Suppliers

Several Lebanese companies provide high-quality cable trays and related services: SFSP Lebanon: Offers a wide range of cable trays and accessories in multiple finishes, compliant with international standards. Legrand Lebanon (Cablofil): Specializes in wiremesh trays with flexible configurations, corrosion-resistant finishes, and certified safety standards. Metas Lebanon: Supplies ladder, wiremesh, and other cable tray types for local projects.

Tramsteel s.a.l.: A leading steel manufacturer in Lebanon, capable of custom cable tray solutions for industrial projects. Powerline Group: Provides cable management systems and electrical products built to American and European standards.

Summary

Lebanese standard cable trays are versatile, durable, and compliant with international safety and cabling standards. They are available in ladder, wiremesh, and solid designs, with multiple material options and installation accessories. Local suppliers like SFSP, Legrand, Metas, Tramsteel, and Powerline Group offer a wide range of solutions suitable for commercial, industrial, and specialized applications, ensuring efficient cable management and long-term reliability.
