Stainless Steel Cable Tray and Mesh Cable Tray Suppliers

Overview

Stainless steel cable tray Find your stainless steel cable tray easily amongst the 25 products from the leading brands (Rototherm, Bourn And Koch, INTERFLE.

Key Takeaways

Leading manufacturers of stainless steel wire mesh cable trays include JLH Electric, Ramdev Steel Industries, Siltec, and Qiaobang, offering customizable, durable, and ventilated cable management solutions. Key Manufacturers and Offerings1.

JLH Electric JL

H Electric provides custom-sized stainless steel wire mesh cable trays designed for data communication and small-diameter cables. Their trays feature smooth mesh to prevent cable abrasion, allow natural ventilation, and can be bent or cut for complex configurations. They offer widths from 200 to 500 mm, heights from 50 to 200 mm, and lengths from 300 to 3000 mm, with wire diameters of 3.

5 to 6 mm.

JL

H also provides OEM/ODM services and optional covers for added protection. 2. Ramdev Steel Industries Ramdev Steel Industries specializes in durable wire mesh cable trays suitable for ceilings, walls, and underfloor installations.

Their trays are lightweight, flexible, and designed for maximum airflow to prevent overheating. They are widely used in commercial buildings, offices, hotels, and industrial setups. Covers are available to protect cables from dust and debris, and the trays support easy future modifications.

3. Siltec Siltec offers stainless steel cable routing systems with a focus on hygiene and industrial applications, including food, chemical, and lumber industries. Their trays are gentle on cables, easy to install, and produced in a modern automated plant.

Siltec emphasizes quality, delivery reliability, and continuous product development to meet evolving industry standards. 4. Qiaobang Qiaobang manufactures stainless steel wire mesh cable trays in SS 304, SS 316, and SS 316L, with lengths from 1000 mm to 3000 mm and widths from 50 mm to 1000 mm.

They offer multiple bending sizes (30 mm, 50 mm, 100 mm, 150 mm, 200 mm) and comply with BS EN 61537: 2007 standards for safe work loading. Their products are recognized for advanced craftsmanship and global after-sales support.

Features to Consider

Material Quality: SS 304, SS 316, or SS 316L for corrosion resistance. Ventilation: Open mesh design ensures heat dissipation. Customization: Adjustable lengths, widths, heights, and bends for complex installations.

Installation Flexibility: Can be mounted on ceilings, walls, or under floors. Covers and Accessories: Optional covers protect cables and maintain cleanliness. Applications: Suitable for IT, electrical, industrial, and commercial environments.

These manufacturers provide reliable, high-quality stainless steel mesh cable trays with global shipping options and customization to meet specific project requirements.
