Tray-type enclosed cable trays

Overview

Cable tray systems are alternatives to wire ways and electrical conduit, which completely enclose cables. Cable trays are capable of supporting all types of wiring: such as High Voltage Power Lines. Each cable tray type performs a different function and comes in various materials such as aluminum. MP Husky is a founding member of the USA Cable Tray Institute and the leader in US cable tray systems and cable support systems. Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems. Cable tray systems are engineered support structures designed to route, support, and protect insulated electrical cables used for power distribution, control, instrumentation, and communication.
