UAE Fiber Optic Connector Price Inquiry

Overview

1-48 of over 3,000 results for "fiber optic converter" Results Check each product page for other buying options. Price and other details may vary based on product size and colour.

Key Takeaways

Fiber optic connector prices in the UAE vary by type, brand, and quantity, typically ranging from AED 5 to AED 50 per unit for standard connectors, with bulk and specialized connectors costing more.

Typical Price Ranges

Standard connectors such as LC, SC, ST, and MU types are available online and in local stores, with prices starting around AED 5–10 per piece for basic plastic or ceramic ferrule connectors and going up to AED 30–50 for high-precision or metal-housed connectors like D-Link ST connectors. Bulk packs (e.g., 100 pcs of dust caps or adapters) are priced around AED 50–150, depending on ferrule size and compatibility with single-mode or multimode fibers. Specialized or telecom-grade connectors with ceramic ferrules, nickel-plated housings, or low insertion loss specifications are generally higher in cost, reflecting durability and performance for enterprise or FTTH deployments.

Supplier Options in UAEAmazon.ae offers a variety of fiber optic connectors and couplers for retail buyers, suitable for small-scale projects or testing. Local distributors such as AEDHS.com provide a wide range of connectors, adapters, and accessories with door-to-door delivery across Dubai, Abu Dhabi, Sharjah, and other emirates, catering to resellers and professional installers. Specialized suppliers in Dubai offer both single-mode and multimode connectors, FTTH cables, and structured cabling solutions, often with bulk discounts and Etisalat/DU compliance for telecom projects.

Ithub.ae lists adapters, couplers, and ferrule dust caps with competitive pricing for small to medium enterprises.

Considerations for Buyers

Connector type: LC, SC, ST, and MU connectors differ in size, ferrule type, and application. Mode: Single-mode (SM) connectors are typically more expensive than multimode (MM) due to precision requirements. Quantity: Bulk purchases reduce per-unit cost.

Supplier reliability: Choose Etisalat/DU-approved products for telecom compliance and local support. Durability: Metal-housed or ceramic ferrule connectors offer longer lifespan and lower signal loss compared to plastic connectors. For accurate pricing, it is recommended to contact suppliers directly for quotes, especially for bulk orders or specialized connectors, as prices fluctuate based on demand, brand, and technical specifications.
