Key Takeaways

12-core optical fiber cables in Uganda typically range from $1. 50 to $3. 50 per meter, depending on type, jacket material, and supplier.

Price Overview

The cost of a 12-core optical fiber cable, such as the Huijue brand, varies based on single-mode or multi-mode, indoor/outdoor rating, and protective features like armored jackets. Single-mode cables (8–10 microns core) are optimized for long-distance transmission, while multi-mode cables (50–62. 5 microns core) are suitable for short-range, high-speed networks.

In Uganda, suppliers like Jumia UG and Legrand Uganda offer fiber optic cables, though specific Huijue pricing may require direct inquiry. Verified suppliers on Volza provide shipment-level pricing and bulk order options, which can help negotiate competitive rates.

Key Specifications Affecting Price

Outer Diameter: Typically 7–10 mm, including protective jackets and buffer tubes. Jacket Material: PVC, LSZH, or armored; armored cables cost more due to enhanced mechanical protection.

Indoor/

Outdoor Use: Outdoor-rated cables with metallic reinforcement are more expensive. Minimum Bend Radius: 10–20 times the cable diameter; proper handling ensures signal integrity. Bulk Orders: Larger quantities often reduce per-meter cost; suppliers like Alibaba and Volza support OEM and bulk pricing.

How to Obtain a QuoteContact Local Suppliers: Reach out to Jumia UG, Legrand Uganda, or Volza-listed manufacturers for Huijue availability and pricing. Specify Requirements: Include cable type (single-mode/multi-mode), length, indoor/outdoor use, and any armored or hybrid design needs. Request Bulk Pricing: For projects requiring hundreds of meters, suppliers often provide discounts.

Compare Multiple Suppliers: Use platforms like Accio to benchmark prices and verify supplier reliability. By following these steps, you can obtain a precise price quote for Huijue 12-core optical fiber cables in Uganda tailored to your project requirements.
