Uganda s High-Quality Corrosion-Resistant Cable Tray Company

Overview

UG Cable offers high-strength cable trays designed for both indoor and outdoor installations, providing continuous support and protection for power and communication cables. Our cable trays, made from pre-galvanized steel or hot-dip galvanized according to AS4680:2006, are lightweight and easy to. Corrosion-resistant cable trays are essential for a variety of industries where cables and wiring work in extreme environments. These environments can include extremely high temperatures, corrosive substances, and harsh conditions. They are the perfect solution for running large quantities of power or data cables overhead or under-floor. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore.
