# What does a home terminal box look like

Cable structure

## Overview

An ONT (Optical Network Terminal) typically looks like a small, rectangular box—usually white or black—with several ports and indicator lights on the front or side. It's designed to sit on a shelf, mount to a wall, or rest near your internet entry point. A terminal box (also known as a JNB box or junction box) is an essential electrical enclosure designed to protect wire connections from physical damage, environmental exposure, and accidental contact. These boxes play a crucial role in ensuring electrical safety within homes by shielding live. With the variety of different electrical boxes available at home centers, how do you know what to buy?

Don't worry, it's not that complicated. Our editors and experts handpick every product we feature. They are standard within most homes, buildings, and factories.
