Which brand is the FS optical module

Overview

has launched its 800G Linear Pluggable Optics (LPO) module. Designed for AI/ML applications, this advanced 800G DR8 OSFP finned top LPO module enables high-speed data transmission with ultra-low power consumption, reduced latency, and superior cost efficiency. Every FS optical module is tested on real devices in our labs. Use the compatibility tool to check switch compatibility. Provides seamless and flexible supply to respond to urgent and unpredictable demand worldwide. 24/7 around. From SFP modules to 800G QSFP-DD, we deliver high-performance fiber optic transceivers for every network need Industry-standard optical transceivers supporting 1G to 10G speeds. COM, a high-speed communication solution provider for data centers, enterprises, and telecom networks, has expanded the company's portfolio of new generation 400G/800G optical solutions to support high-speed network connections and enable transmissions of more. OPTICAL MODULE World-Class Optics for Datacom and Telecom FS optical transceiver portfolio includes a wide What Make range of copper and optical transceivers to fit in data centers, enterprise and metro FS Optics networks. All of our transceivers are standards-based and comply with the MSA. FS is a company that provides network system solutions for data centers, enterprises, and the telecom sectors.
