X-Met8000 Spectrum Analyzer

Overview

The X-MET8000 range of handheld X-ray fluorescence analyzers delivers the performance needed for rapid alloy grade identification and accurate chemistry of a wide variety of materials (solid and powder metals, polymers, wood, solutions, soil, ores, minerals etc). This user guide covers the following aspects to help users maximize the device's efficiency: Principles and Features of. Rugged, intuitive, and versatile, the X-MET8000 supports multiple models and modes designed to solve your specific testing challenges across industries. Rh target X-ray tube (4W; 50kV max.) Operating temperature: -10 °C to +50 °C. Graphical user interface available in 13 languages: Chinese traditional and simplified, English, Finnish, French, German, Italian, Japanese, Korean, Polish, Portuguese, Spanish and Russian.

Handheld analyzer

Find out all of the information about the Hitachi High-Tech Analytical Science product: handheld analyzer X-MET8000. Contact a supplier or the parent

X-MET8000 Expert Geo technical specifications

PC software (standard): Spectrum Display – enables to select analysis condition, collect, view and compare samples spectra Report Generator - enables the creation of customised reports Calibration

HANDHELD XRF

Providing you with laboratory quality results in the field, the versatile, fully flexible X-MET8000 range of handheld X-ray fluoresce (XRF) analyzers deliver fast, accurate and non-destructive results from Mg

AdvanSpec | X-MET8000 Optimum Handheld XRF

The X-MET8000 Optimum handheld X-ray fluorescence (HHXRF) analyser delivers the performance needed for rapid alloy grade identification and accurate

Oxford Handheld XRF Analyzer

The X-MET8000 series includes 3 models (Smart, Optimum and Expert) to suit all analysis needs and budgets, for scrap metal analysis, precious metals and jewellery analysis, positive material

X-MET8000 Optimum Datasheet

The X-MET8000 XRF Analyzer, is ideal for scrap metal analysis, precious metals and jewelry analysis, and positive material identification (PMI) for inspection and manufacturing applications.

Oxford Instruments X-MET8000 XRF Analyzer

For sale Oxford X-MET8000 XRF Analyzer, very lightly used, everything still in great working and cosmetic condition The X-MET8000 has been calibrated by

Handheld XRF Analysers | Materials Identification

Handheld XRF analysers X-MET8000 range The X-MET8000 range of handheld X-ray fluorescence (HHXRF) analysers delivers the performance needed for rapid

Technical Specifications: X-MET8000 Expert

USB 2.0. Bluetooth 2.0 (EDR). WiFi 802.11 b/g. Spectrum Display – enables to select analysis condition, collect, view and compare samples spectra. Report Generator - enables the creation of customised

Hitachi X-MET8000 Smart XRF Analyzer

Hitachi X-MET8000 Smart PMI XRF Analyser is a Lightweight, compact and handy. The X-MET8000 is used by an icon-built touch-screen and comes pre-calibrated

Metal analyzer

Find out all of the information about the Hitachi High-Tech Analytical Science product: metal analyzer X-MET8000 Smart. Contact a supplier or the parent

Oxford Instruments X-MET8000 Series Operator''s Manual

View and Download Oxford Instruments X-MET8000 Series operator''s manual online. X-MET8000 Series measuring instruments pdf manual download.

MANUFACTURING QA/QC

MANUFACTURING QA/QC The X-MET8000 is a handheld X-ray fluorescence (XRF) analyzer that delivers fast, non-destructive analysis and accurate grade identification for manufacturing quality

Hitachi X-MET8000 Handheld XRF Analyzer Collection

The X-MET8000 delivers rapid, lab-grade elemental analysis across a wide range of applications—metals, soils, plastics, glass, oils, ores, wood, and more.

Oxford Handheld XRF Analyzer

Our range of handheld XRF analyzers, the X-MET8000 series, delivers the speed and performance required even in the most demanding applications, by using the optimised combination of a high
