Xd junction box

Overview

A series of terminal and junction boxes made from aluminum. Ex d and Ex tb certified for installation in explosion-hazardous areas. Suitable for use in gas group IIB+H 2 environments. These sturdy solutions are certified according to global standards such as ATEX, IECEx. ROSE supplies flameproof enclosures in various sizes and types for use in various gas groups and service-temperature ranges. The enclosure experts from Porta Westfalica thus provide industry with a broad range of solutions for the safe and reliable encapsulation of electrical equipment. 316L stainless steel, GRP or aluminum, they provide IP66-IP68 protection and resist from -60 ° C to +120 ° C. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times.
